To Whom It May Concern:

Ms. Charlie Blaeser (DOB 08-12-2007). She sought treatment for a mental health-related disorder that can be found in the DSM-V. I'm familiar with her emotional-mental history and with the functional limitations imposed by this mental health-related disorder.

Due to this emotional disorder, Ms. Blaeser has certain limitations coping with what would otherwise be considered normal, significant day to day situations, such as symptoms of anxiety (including, lack of interest in daily activities, feelings of frustration, worrying and inability to self soothe).

To help alleviate these challenges and to enhance her day to day functionality, I have prescribed Ms. Blaeser to obtain a cat as her emotional support animal, specifically Tabby breed cat named Honey Bun, that weighs 13 lbs. This animal is necessary for the mental health of Ms. Blaeser because their presence will mitigate the symptoms she is currently experiencing.

I am licensed to practice therapy and to prescribe ESAs for treatment. My license number is MFT-46136. My LMFT license was issued in the state of California in 2008. This letter should suffice as proof of treatment and certification of obtaining and keeping an emotional support animal in her dwelling, in accordance with the Fair Housing Act and the Americans with Disabilities Act.

Sincerely,
Tina Logan, LMFT
Calif. Lic. 46136
